PROGRAM LENGTH

Intended time to complete a cosmetology program attending full time is 6 months

ON-TIME COMPLETION RATE

On-Time Completion Rate for students who completed the Nail Technology Program during the most recently completed award year (7/1/14-6/30/15):

On-Time (100%) Completion Rate: 81.8%

Completers who finished satisfactorily within 150% of their program start: **100%**

On time completion rate for students is calculated by the following methodology: Total number who graduated during 7/1/14-6/30/15 divided by the number who completed their program on or before their original contracted date.

- Please keep in mind that an On Time Completion Rate consists of graduates who complete their program on or before their original contracted graduation date. The Dept. of Education prohibits institutions from including in the On Time Completion Rate, a graduate who may have taken a leave of absence, graduation was delayed due to school closings for bad weather, or changed their original enrollment schedule. It has always been the policy of Tennessee School of Beauty to try to accommodate requested scheduled changes and documented leaves of absences. Students who fall into this category, although they graduate, do not meet the definition of an on time completer/graduate and are not included in this rate.
- 150% of Normal Time is the acceptable maximum timeframe within the U.S. Dept of Education regulations for a student to satisfactorily complete a program.
